

## SNIO Research Working Group (RWG)

**A Selection of Research Projects open for**

- a) accrual of patients**
- b) participation as academic or clinical investigator**
- c) participation as SNIO study centre**

*The list is not exhaustive, it is a work in progress, designed to inform healthcare professionals. If you are a patient, please speak to your physician before using any of them.*

Projects are included (by the SNIO-RWG) in this list which are covering 1. general integrative oncology (as defined by SNIO), 2. specific practice fields (Anthroposophic Medicine, Individualized Homeopathy, Mind-Body Medicine incl. Hypnosis, Phytotherapy, TCM-Acupuncture) or 3. key integrative oncology aspects of other fields (e.g., nutrition, physical activity, psychooncology).

**This form will be updated at each SNIO WG Research monthly virtual meeting and the new version up-loaded on the SNIO-homepage ([www.integrative-oncology.ch](http://www.integrative-oncology.ch))**

If you are aware of any other research projects (open for accrual in Switzerland or for becoming an investigator / participating SNIO center) that we should add to our list, please get in touch: [flo.strasser@bluewin.ch](mailto:flo.strasser@bluewin.ch); [marie-estelle.gaignard@huq.ch](mailto:marie-estelle.gaignard@huq.ch) and participate at the SNIO WG Research meeting.
